NEXT GENERATION SUNSHINE STATE STANDARDS

HISTORY

The Sunshine State Standards were first approved by the State Board of Education in 1996 as a means of identifying academic expectations for student achievement in Florida. These original Standards were written in several subject areas and were divided into four grade clusters (PreK-2, 3-5, 6-8, and 9-12). This format was chosen to provide flexibility to school districts in designing curriculum based on local needs.

As Florida moved toward greater accountability for student achievement at each grade level, the Sunshine State Standards were further defined with specific "Grade Level Expectations" added over time. As time went on, two realities appeared that magnified the need to increase the level of rigor, coherence, and clarity in Florida's academic standards. First, it was recognized that the level of rigor in the 1996 standards was inadequate to address the increased levels of achievement registered by our students. Second, ample evidence from both national and international measures of student achievement indicated the urgent need for higher levels of challenge for all our students. This could not occur without a serious effort to increase the level of rigor and expectations across the board for all Florida students.

The Department of Education recognized the need for a systematic approach to review and revise all of the academic standards, and on January 17, 2006, the State Board of Education adopted a six-year cycle that set forth a schedule of the regular review and revision of all K-12 content standards. (http://www.flstandards.org) This move went far beyond increasing the rigor of the standards, however; it included alignment of the new standards with assessments, instructional materials, professional development, and teacher licensure exams. This way, the new standards and their higher levels of rigor will be fully integrated into the entire culture of K-12 instruction. This move sets the stage for higher levels of rigor and higher academic achievement for years to come.

A COMMITMENT TO EXCELLENCE

The Florida Legislature boldly stated its commitment to higher and more challenging standards for Florida's children by passing HB 7087 in 2006. In 2008 the Florida Legislature passed SB 1908, which required the creation of Next Generation Sunshine State Standards.

§1001.03(1) ... The state board shall adopt and periodically review and revise the Sunshine State Standards in accordance with s. 1003.41.

§1003.41(1) Sunshine State Standards. Public K-12 educational instruction in Florida is based on the "Sunshine State Standards." The State Board of Education shall review the Sunshine State Standards and replace them with the Next Generation Sunshine State Standards that establish the core content of the curricula to be taught in this state and that specify the core content knowledge and skills that K-12 public school students are expected to acquire.

Many people have been involved in the review and revision of the Next Generation Sunshine State Standards. The Department of Education extends sincere thanks to all of the educators and members of the public for their active interest in this important work. We look forward to continued work with them as partners in implementing these higher expectations for all of Florida's students.

Commissioner of Education

REVISION PROCESS FOR THE ARTS STANDARDS DANCE, MUSIC, THEATRE, AND VISUAL ART

FRAMING THE WORK

From March 23, 2010 to April 5, 2010, the Bureau of Curriculum and Instruction/Office of Humanities convened a select group of arts teachers, administrators, advocates, and other stakeholders to consider the framework for the revision of the Sunshine State Standards for the Arts. This group was comprised of respected K-20 Dance, Music, Theatre, and Visual Arts educators, district supervisors, and arts education advocates, and charged with framing the writing of the Next Generation Sunshine State Standards for the Arts.

The Framers met online via WebEx seven times over this two-week period to hear from experts from across the nation, discuss their presentations, and consider the structure for the development of the Next Generation Sunshine State Standards for the Arts, specifically in Dance, Music, Theatre, and Visual Art. An important goal of this work was to strive for consensus among content and education experts, researchers, parents, practitioners, and members of the business community. Throughout the series of webinars and online work sessions, the Framers collaborated on such matters as:

- the organizational structure for the Standards,
- the processes to be used by the Writing Teams, and
- resources to support the Writing Teams' work.

In a series of webinars, the Framers heard presentations by:

- Eric Jensen, specialist on brain research and student learning, and a noted author and clinician;
- the State Arts Education Specialists from Colorado, Delaware, South Carolina, Kentucky, and Tennessee regarding the exemplary processes and products of their states' work in Standards development; and
- the leadership of the Educational Theatre Association, the National Dance Education Organization, the National Art Education Association, and MENC: The National Association for Music Education, who provided a national view of current research, standards, and extant educational philosophies and foundations.

The experts' names have been included in the Acknowledgments section of this document.

Combined with this information and their own expertise in specific arts and non-arts disciplines and education initiatives in Florida and the nation, the Framers used the research and other information presented during the webinars and work sessions to define the structure and provide the Writing Teams with guiding principles for their work.

THE CHARGE TO THE WRITERS

- 1. Review recommended print and electronic resources, using the *ADP Quality Review* to examine the strengths of the standards specifically recommended by the Framers:
 - a. Note gaps
 - b. Note repetitions
 - c. Analyze for rigor, coherence, focus, specificity, clarity/accessibility, and measurability

- 2. Develop benchmarks with the "next step" in mind to build seamless articulation and high expectations throughout, considering the essential skills and knowledge graduating seniors need to compete and succeed in post-secondary education and the workplace, and to become active contributors in their communities.
- 3. Build an instructional framework into the NGSSS-Arts within which arts teachers can provide high-expectation learning opportunities to challenge students who have had:
 - a. significant instruction and experience in the arts, including students who plan to major in the arts at the post-secondary level, or
 - b. limited or no arts education experiences.
- 4. Write the NGSSS-Arts with "tomorrow" in mind—not with an eye to what is, with its inherent limitations; but to what should be, with all its implications for creativity and innovation, equity and access.
- 5. Focus significant attention on process, rather than product alone.
- 6. Embed technology throughout the benchmarks, acknowledging the exponential nature of developments in technology-based learning tools and new media for creativity, collaboration, and sharing.
- 7. Break into K-12 subgroups to work on Big Ideas:
 - a. beginning with two to three Enduring Understandings embedded within each Big Idea, and
 - b. considering authentic Essential Questions that district- and school-based curriculum-writing teams and individual teachers might devise to help guide instructional design.
- 8. Delineate clear, concise, and differentiated grade-level benchmarks for each Big Idea that address the Enduring Understandings, emphasizing the importance of learning for transfer and depth rather than breadth.
- 9. Reference the Depth of Knowledge (DOK) levels identified and organized by Norman L. Webb et al as a guide for identifying and addressing appropriate levels of cognition when writing benchmarks.

THE WRITING PROCESS

The Writers met online weekly and sometimes twice weekly as four separate, content-specific teams from mid-April 2010 through mid-July 2010 to write the new Standards and Benchmarks in accordance with the Framers' Charge. Beginning with the eight Big Ideas designed by the Framers to organize the work across all arts disciplines, the eight Co-Chairs and their four Writing Teams wrote a large number of related "Enduring Understandings" based on the <u>Understanding by Design</u> work of Grant Wiggins and Jay McTighe, sometimes referenced as "Backwards Design" or "UbD." Modified during the writing process, these Big Ideas and Enduring Understandings appear at the end of the overview.

Using Wikispaces to brainstorm and focus their efforts, the Writing Teams reviewed salient, extant research, standards from other states, the 1994 National Standards in the Arts, and the standards from a number of other countries. Team members shared their findings on their Team's Wikispaces and then completed the work of writing and vetting the first draft of the Benchmarks via WebEx and collaborative spreadsheets on Google Docs for a period of twelve weeks, again meeting one or two times weekly for two-to-three hours each.

From July 19, 2010 to September 6, 2010, the drafts of the Dance, Music, Theatre, and Visual Art Standards were provided online for public review. Online reviewers provided 51,655 ratings of the draft Arts Benchmarks and Enduring Understandings. These stakeholders self-identified, in descending order, as K-12 educators, district-level educators, post-secondary educators, state-level educators, parents, school administrators, out-of-state stakeholders, and business representatives. On a scale of one

to five, with five being the highest, more than seventy percent of the Benchmarks were rated between four and five, with none scoring below a three.

From September 7, 2010 through October 3, 2010, the Benchmarks were revised, again through WebEx, based on input from the Framers, designated expert reviewers, arts teachers, the general public, and many others from within and beyond Florida. In addition to the revisions based on public input, benchmark measurability was reviewed and revisions for that factor were completed, as well.

ACCESS POINTS FOR STUDENTS WITH A SIGNIFICANT COGNITIVE DISABILITY

As part of this process, Access Points for students with significant cognitive disabilities were developed. Access Points for the Arts are benchmarks written for students with a significant cognitive disability, allowing them access to the arts education curriculum.

Next Generation Sunshine State Standards for the Arts (NGSSS-Arts) Access Points reflect the core intent of the standard at the Enduring Understandings level, with reduced complexity. The three levels of complexity include Participatory, Supported, and Independent, with the Participatory level being the least complex. NGSSS-Arts Access Points were developed through the cooperative efforts of writing teams composed of Florida arts educators and other stakeholders under the direction of staff from the Curriculum, Learning, and Assessment Support Project (CLASP) and the Florida Department of Education.

STRUCTURE OF THE STANDARDS DOCUMENT

The Next Generation Sunshine State Standards in the Arts has been organized by grade level for grades K-5 and by clusters for grades 6-8 and 9-12. This structure was determined by Florida Statute, in part, and by the Framers. Discipline-specific content in Dance, Music, Theatre, and Visual Art has been organized under "Big Ideas" common to all four arts disciplines. This will help learners make connections that undergird learning for transfer and provide continuity throughout the full span of Standards and Benchmarks for educators at the district and school levels as they develop curricular materials.

§1003.41(1)(b) Sunshine State Standards.--

(b) Establish the core curricular content for visual and performing arts, physical education, health, and foreign languages. Standards for these subjects must establish specific curricular content and include distinct grade level expectations for the core content knowledge and skills that a student is expected to have acquired by each individual grade level from kindergarten through grade 5. The standards for grades 6 through 12 may be organized by grade clusters of more than one grade level.

BIG IDEAS

The Big Ideas are the major organizing points for arts education in Florida and provide a broad overview of what students should know and be able to do. They include descriptive material to help focus sequential instruction throughout K-12. Big Ideas are not designed for measurement purposes. **ENDURING UNDERSTANDINGS (EUs)**

The Enduring Understandings (EUs) are subsets of the Big Ideas, providing a more focused view of arts education and targeted understandings for Florida's students to begin building during the primary grades, where foundations are laid, through to students' arts experiences in high school and beyond.

Like the Big Ideas, they are not designed for assessment purposes; rather they're expressed in general terms that will allow arts teachers at the classroom level to identify or design Essential Questions for planning purposes.

BENCHMARKS

Benchmarks drive instruction in Florida's classrooms and, therefore, have been made specific and measurable. Organized under each Big Idea and Enduring Understanding, the Benchmarks explicitly describe what students should know and be able to do in Dance, Music, Theatre, and Visual Art.

The Framers and Writers recognized the importance of addressing a number of important elements central to student learning in the arts. In addition to literacy, math, and civic engagement, conversations include such topics as the brain (e.g., cognition, sequencing, attending, filtering), problem-solving, creativity, innovation, cross-cultural understandings, 21st-century skills, and students' acquired acceptance of delayed gratification. With these new elements embedded in the Benchmarks along with knowledge and skills for each art discipline, the Writing Teams worked to develop Next Generation Sunshine State Standards in Dance, Music, Theatre, and Visual Art that addressed the whole student artist with an eye to each individual student's future.

ACKNOWLEDGMENTS

The Florida Department of Education and Bureau of Curriculum and Instruction gratefully acknowledge the cooperation and assistance received from individuals and groups throughout Florida and the country in this revision process. Without such cooperation, these revisions would not have been possible.

We would like to express special our deepest appreciation to the many educators and community stakeholders who participated in the revision process by serving on curriculum committees and by providing input to the draft document, and to those who took the time to review and rate the draft online. These people include, but are not limited to, the following:

BIG IDEAS AND ENDURING UNDERSTANDINGS IN THE ARTS

Big Idea C

CRITICAL THINKING and REFLECTION: Critical and creative thinking, self-expression, and communication with others are central to the arts.

<u>Enduring Understanding C.1</u> Cognition and reflection are required to appreciate, interpret, and create with artistic intent.

<u>Enduring Understanding C.2</u> Assessing our own and others' artistic work, through critical thinking, problem-solving, and decision-making, is central to artistic growth.

<u>Enduring Understanding C.3</u> The processes of critiquing works of art lead to development of critical-thinking skills transferable to other contexts.

Big Idea S

SKILLS, TECHNIQUES, and PROCESSES: Through dance, music, theatre, and visual art, students learn that beginners, amateurs, and professionals benefit from working to improve and maintain skills over time.

<u>Enduring Understanding S.1</u> The arts are inherently experiential and actively engage learners in the processes of creating, interpreting, and responding to art.

<u>Enduring Understanding S.2</u> Development of skills, techniques, and processes in the arts strengthens our ability to remember, focus on, process, and sequence information.

<u>Enduring Understanding S.3</u> Through purposeful practice, artists learn to manage, master, and refine simple, then complex, skills and techniques.

Big Idea O

ORGANIZATIONAL STRUCTURE: Works in dance, music, theatre, and visual art are organized by elements and principles that guide creators, interpreters, and responders.

<u>Enduring Understanding O.1</u> Understanding the organizational structure of an art form provides a foundation for appreciation of artistic works and respect for the creative process.

<u>Enduring Understanding O.2</u> The structural rules and conventions of an art form serve as both a foundation and departure point for creativity.

<u>Enduring Understanding O.3</u> Every art form uses its own unique language, verbal and non-verbal, to document and communicate with the world.

Big Idea H

HISTORICAL and GLOBAL CONNECTIONS: Experiences in the arts foster understanding, acceptance, and enrichment among individuals, groups, and cultures from around the world and across time.

Enduring Understanding H.1 Through study in the arts, we learn about and honor others and the world in which they live(d).

<u>Enduring Understanding H.2</u> The arts reflect and document cultural trends and historical events, and help explain how new directions in the arts have emerged.

<u>Enduring Understanding H.3</u> Connections among the arts and other disciplines strengthen learning and the ability to transfer knowledge and skills to and from other fields.

Big Idea F

INNOVATION, TECHNOLOGY, and the FUTURE: Curiosity, creativity, and the challenges of artistic problems drive innovation and adaptation of new and emerging technologies.

<u>Enduring Understanding F.1</u> Creating, interpreting, and responding in the arts stimulate the imagination and encourage innovation and creative risk-taking.

<u>Enduring Understanding F.2</u> Careers in and related to the arts significantly and positively impact local and global economies.

<u>Enduring Understanding F.3</u> The 21st-century skills necessary for success as citizens, workers, and leaders in a global economy are embedded in the study of the arts.

| | IQUES, and PROCESSES: Through dance, music, theatre, and visual art, students learn that urs, and professionals benefit from working to improve and maintain skills over time. |
| Through purposefu | Il practice, artists learn to manage, master, and refine simple, then complex, skills and techniques. |
| DA.K.S.3.1 | Refine gross- and fine-locomotor skills through repetition. |
| DA.K.S.3.2 | Imitate simple exercises for strengthening and stretching the body. |
| DA.K.S.3.3 | Develop kinesthetic awareness by maintaining personal space and moving in pathways through space. |
| DA.K.S.3.4 | Move to various musical and rhythmic accompaniments, responding to changes in tempo and dynamics. |
| DA.1.S.3.1 | Imitate basic body postures and maintain a pose in a held stance. |
| DA.1.S.3.2 | Repeat simple body movements to strengthen and stretch the body. |
| DA.1.S.3.3 | Practice moving body parts in and through space to develop coordination. |
| DA.1.S.3.4 | Demonstrate acuity in transferring given rhythmic patterns from the aural to the kinesthetic. |
| DA.1.S.3.5 | Explore, manipulate, and manage concepts of personal and general space by moving in different levels and directions. |
| DA.2.S.3.1 | Replicate basic positions with clear body lines and correct alignment. |
| DA.2.S.3.2 | Perform bending and reaching exercises to increase strength, stamina, flexibility, and range of motion. |
| DA.2.S.3.3 | Repeat given movements to show coordination between body parts. |
| DA.2.S.3.4 | Maintain a demonstrated rhythm in time to musical accompaniment. |
| DA.2.S.3.5 | Maintain balance in basic positions and in shifting weight through <i>plié</i> . |
| DA.3.S.3.1 | Demonstrate appropriate posture with strength in the abdomen and length in the spine. |
| DA.3.S.3.2 | Perform safe practice exercises for increasing strength, flexibility, and range of motion. |
| DA.3.S.3.3 | Perform far-reach exercises to demonstrate knowledge of the use of line in movement. |
| DA.3.S.3.4 | Identify and demonstrate an understanding of the elements of time. |
| DA.3.S.3.5 | Maintain center line of balance in place, in transfer of weight, and while changing levels. |
| DA.3.S.3.6 | Execute a movement sequence, in and through space, with a specific expression. |
| DA.3.S.3.7 | Rehearse movements and dance sequences to develop coordination and agility in muscular groups. |
| DA.4.S.3.1 | Observe and practice appropriate alignment of the torso, arms, and legs in a given dance sequence, using assisted correction, allegory, and/or imagery to support understanding and successful repetition. |
| DA.4.S.3.2 | Identify weaknesses in personal strength, flexibility, and range of motion, and apply basic, safe practice exercises to address the need. |
| DA.4.S.3.3 | Practice weight shift and transitions through plié, élévation, piqué, and chassé. |
| DA.4.S.3.4 | Replicate timing, rhythm, and accents demonstrated by the teacher and peers. |
| DA.4.S.3.5 | Maintain center of balance in various positions. |
| DA.4.S.3.6 | Practice varying expression and intention by moving in dance sequences using direct and indirect space and active and passive energy. |
| DA.4.S.3.7 | Repeat dance sequences with increasing speed and articulation to develop agility and coordination. |
| DA.5.S.3.1 | Demonstrate basic posture, engage abdominal muscles, lengthen the spine, and show awareness of shoulder-to-hip line. |
| DA.5.S.3.2 | Increase strength, flexibility, and range of motion in the joints based on an awareness of safe practices and knowledge of basic anatomy and physiology. |
| DA.5.S.3.3 | Practice shifting weight from one leg to another using space and various levels and shapes. |

HISTORICAL and GLOBAL CONNECTIONS: Experiences in the arts foster understanding, acceptance, and enrichment among individuals, groups, and cultures from around the world and across time.

Connections among the arts and other disciplines strengthen learning and the ability to transfer knowledge and skills to and from other fields.

MU.K.H.3.1 Perform simple songs, finger plays, and rhymes to experience connections among music, language, and numbers.

SKILLS, TECHNIQUES, and PROCESSES: Through dance, music, theatre, and visual art, students learn that beginners, amateurs, and professionals benefit from working to improve and maintain skills over time.

Through purposeful practice, artists learn to manage, master, and refine simple, then complex, skills and techniques.

VA.K.S.3.1 Develop artistic skills through the repeated use of tools, processes, and media.

ORGANIZATIONAL STRUCTURE: Works in dance, music, theatre, and visual art are organized by elements and principles that guide creators, interpreters, and responders.

Understanding the organizational structure of an art form provides a foundation for appreciation of artistic works and respect for the creative process.
