FRONT MATTER - SECONDARY	
Stimulus Attributes	Written questions should be at grade level readability. Written and aural musical excerpts should provide enough information for the student to answer the question keeping in mind the student might not be familiar with the work. Unless noted in a benchmark specification, aural musical excerpts should be a minimum of 30 to 45 seconds. Short answer or extended responses should specify limitations (e.g., length of the desired answer), clearly define the task, and include a clear and concise rubric for grading. Research and identify copyright information for each visual and aural example. Writers are encouraged to review public domain sources and/or compose/arrange musical examples based on the benchmarks.
Response Attributes	Selected response choices should be at grade level readability and approximately the same length. Selected response items must contain only one correct answer. All distractors must be plausible. If aural distractors are used, they should be 5-10 seconds in length.
